Author: Ji Li Lang

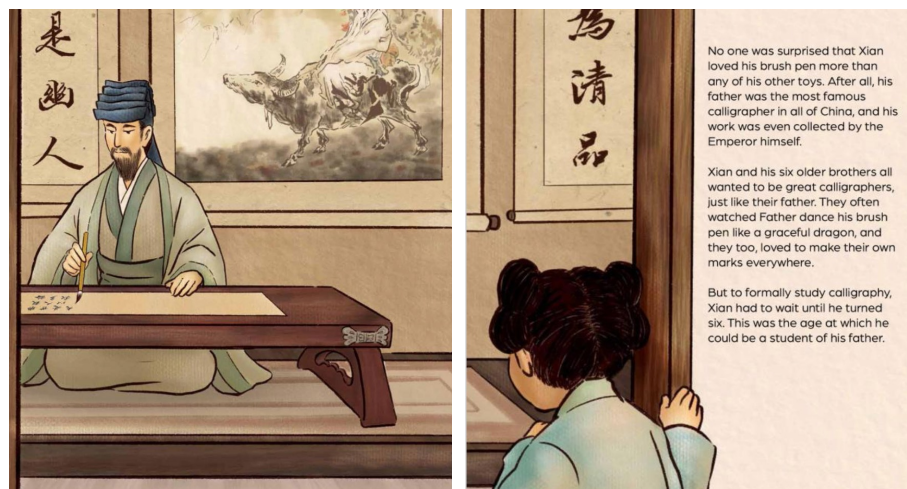

Published by: Creston Books, April 5, 2022

Format: 32 pages, 7 - 11 years

As long as he can remember, Xian has wanted to be a great calligrapher, like his father.

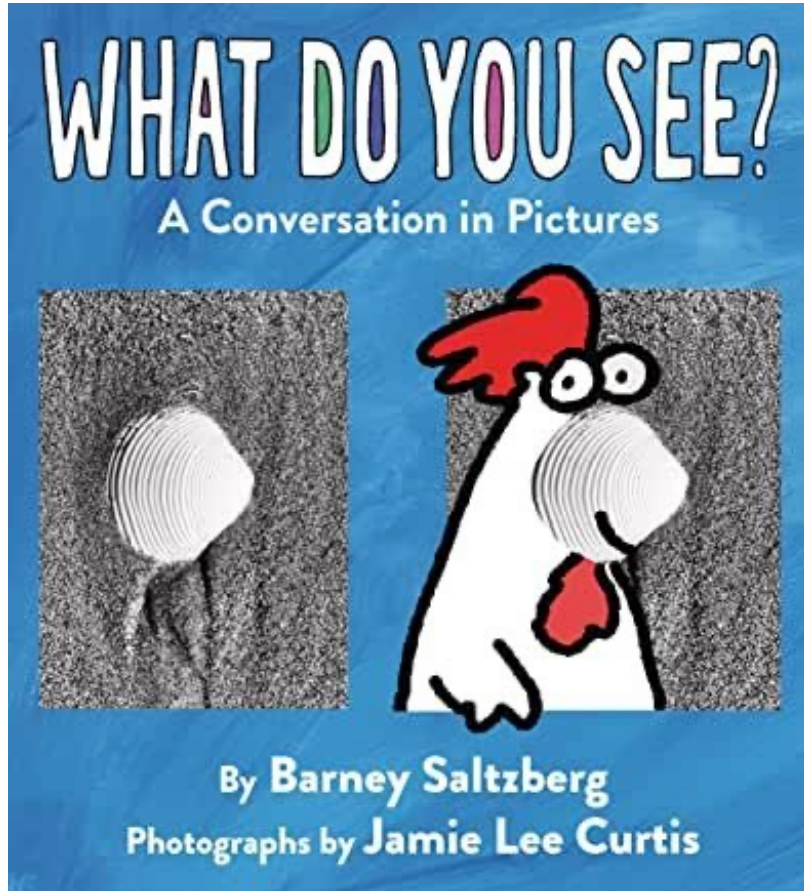

When he turns six, he's finally old enough to start studying. Calligraphy is more than writing—it's painting—and Xian learns how much work and creativity go into what look like effortless strokes.

Based on stories still told about Xian and his father, famous calligraphers of the 4th century, *Eighteen Vats of Water* is about determination, creativity, and learning how to see, as well as the importance of family traditions.

What Do You See? A Conversation in Pictures

More at crestonbooks.com

Author: Barney Saltzberg

Photographs: Jamie Lee Curtis

Published by: Creston Books, March 1, 2022

Format: 32 pages, 5 - 10 years

How creatively do *you* see things?

She took photographs of things she loved and sent them to him. He drew pictures on her photographs of things he saw and sent them back to her.

Real-life friends Barney Saltzberg and Jamie Lee Curtis share their fun, funny, and imaginative creations, encouraging readers to find their own unique perspectives lurking in puddles and noodles, fruit and flowers. This project was born out of a school visit where Jamie complimented Barney's creativity, lamenting her own inability to draw . . . and Barney countered that everyone is creative in their own way. They joined forces to create a book that is sure to inspire kids of all ages.

Even when pals are miles apart in what they see, Saltzberg (We're All in the Same Boat) and Curtis (Me, Myselfie & I) seem to say, they can appreciate, be tickled by, and connect via a new perspective: "He loved what she saw.... She loved what he would draw." Back matter invites readers to engage in similar activities.

We're All In The Same Boat

Author: Barney Saltzberg

Published by: Creston Books, September 2021

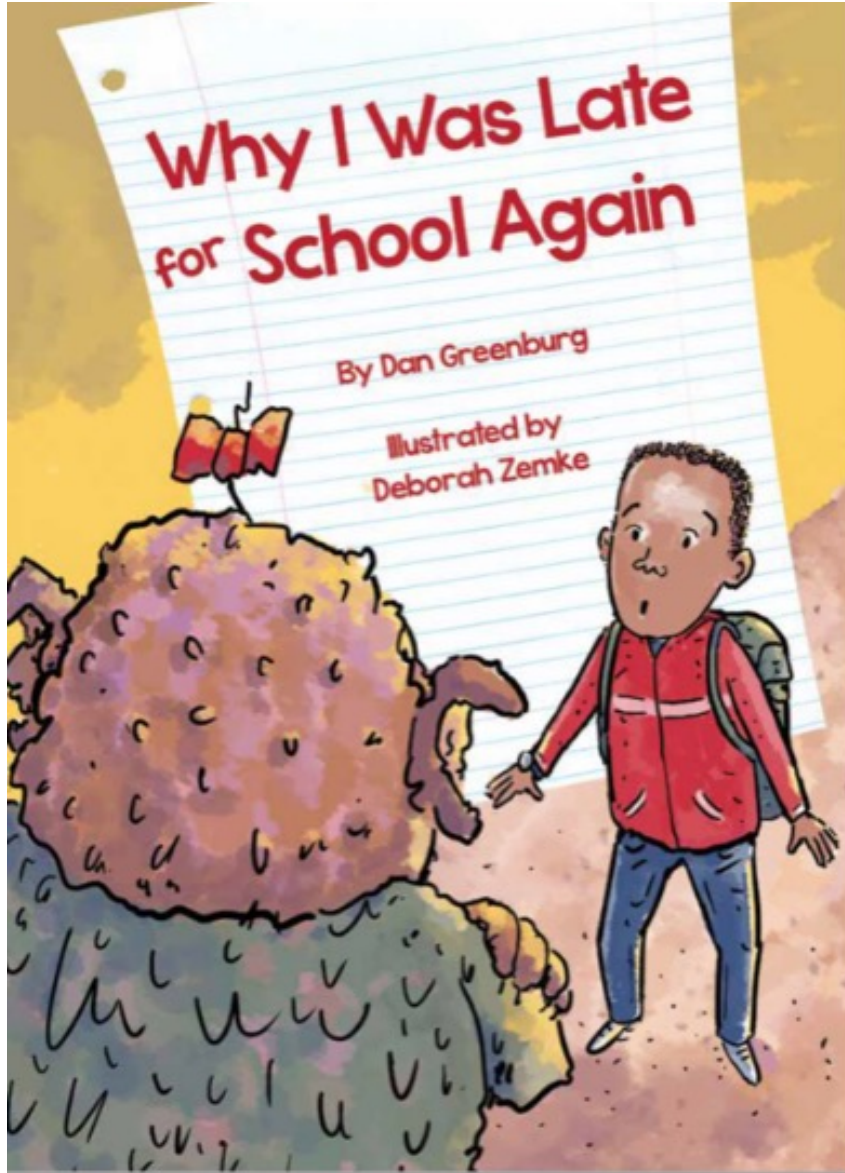

Format: 32 pages, 2 to 8 years

We're all in the same boat, both literally and metaphorically, in this playful look at how we can work together for the common good. The animals in this boat discover that working together gets them much further and is more fun than trying to go their separate ways. Barney Saltzberg (*Enough Is Enough*) brings his trademark humor to a group of animals who learn they'll sink or swim together. Teamwork matters when we're all in the same boat!

Everybody Knows What A Tree Is

More at Eifrigpublishing.com

Author: Jason Gruhl and Genjō Mark Yorke
Illustrator: Skye Ali
Published by: Eifrig Publishing, September 2021

This is a book about wonder and about questioning what we think we know. By the time we become adults, we think we know quite a lot. Facts and theories all prop up our idea of the world and how it should work, but do we really know, or are we just trying to make ourselves feel secure?

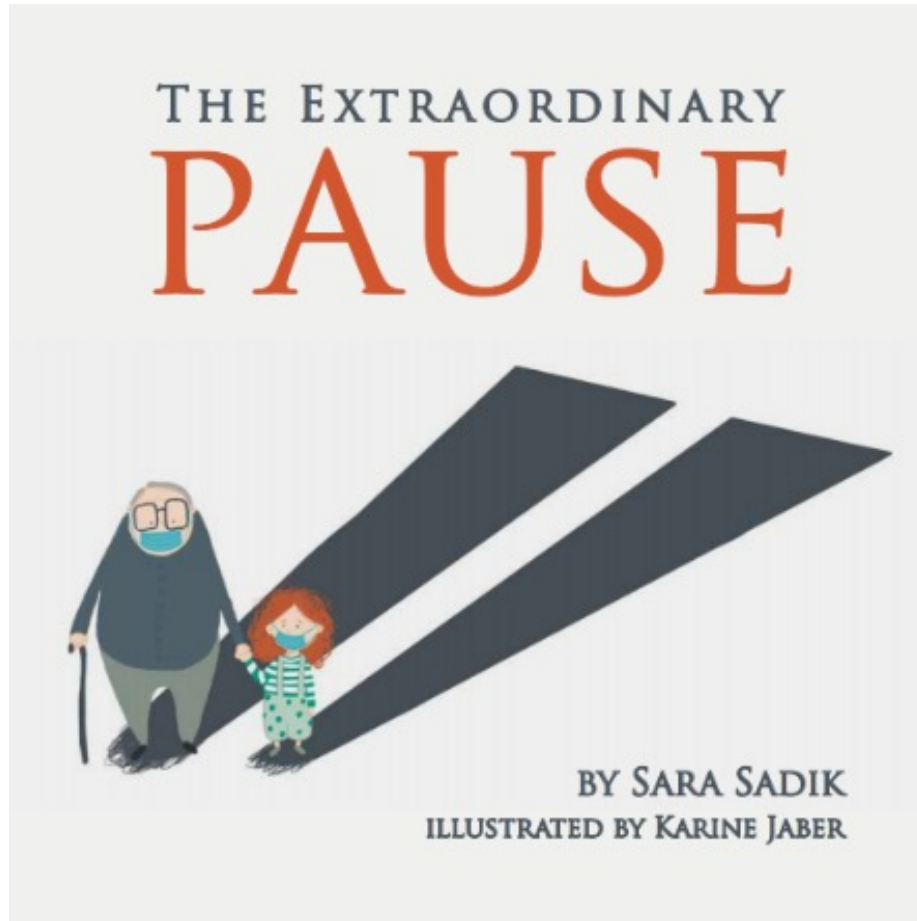

In *Everybody Knows What a Tree Is*, children talk their way through what they think they know — the uses for trees, the fun to be had, and the amazing scientific facts about them. But in contrast, the animals have a different language and experience for talking about trees. Over time, the children begin to question their knowledge and they look to their senses. But when this, too, breaks down, they are ultimately led to wonder what the experience of a tree is for itself, a truly magical question.

Knowledge is important for many reasons: for understanding and solving problems, for building new concepts and creations, and for describing how our world works.

But wonder allows us to interact with the world as it actually is — before the labels, definitions, and rules get laid on top. Ultimately, the book asks us to be comfortable with NOT knowing. It invites us to remember that life is ultimately a mystery and that not having an answer is an answer itself.

The Extraordinary Pause

Author: Sara Sadik

Illustrator: Karine Jaber

Published by: Eifrig Publishing, September 2021

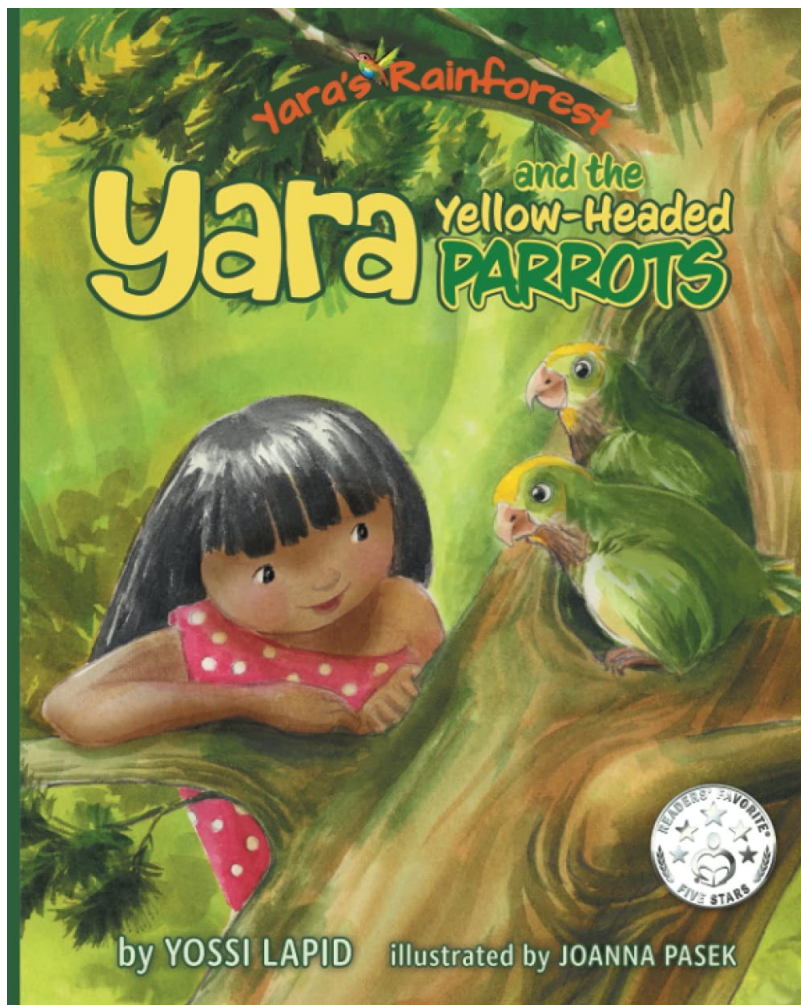

The Extraordinary Pause is a keepsake testament of the pandemic of 2020-2021 and a tribute to the simple and remarkable efforts people made in the face of the unexpected and unknown. Whether reflecting on what was lost or gained, this book is a wonderful tool for discussing the physical, mental, and emotional impact of this extraordinary event. The text is complimented with thoughtful and poignant illustrations with a minimal color palette and plenty to explore for the young audiences, as well as a few talking points to help kids reflect and remember this experience.

This book will have a place in a child's permanent collection of childhood favorites. It will be a place to return to as we reflect with our kids on the challenging period we experienced during the extraordinary pause and help us all to grapple with the social, physical, and mental parts of the journey.

Love Is Forever

Author: Casey Rislov

Illustrator: Rachel Balsaitis

Published by: Casey Rislov Books April 2015

Format: 32 pages, 5 to 7 years

Losing a loved one is hard for anyone, especially a child who might be experiencing loss for the first time. This book gives caregivers and children a beautiful way to begin talking about loss and grief, and how to keep loved ones close in heart and mind through shared memories. Endearing artwork perfectly complements this heartfelt story about keeping love alive in the present and in the future.

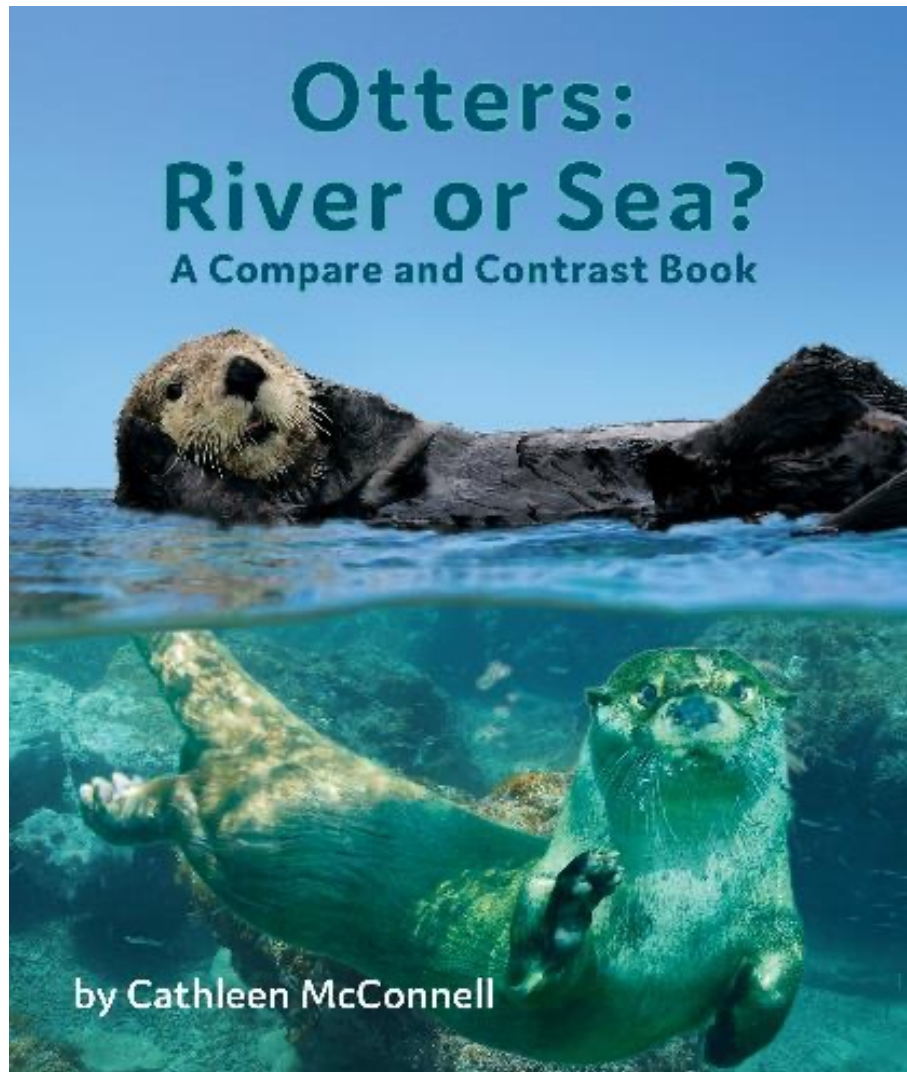

Casey Rislov holds a master's degree in elementary education and is endorsed in early childhood and special needs. Casey's best seller, *Love is Forever* allowed her to share a tender side of herself. And she is excited to continue the theme of love using gentle words, sweet illustrations, and embracing the favorite bible passages from Corinthians in her new baby board book, *Love*.

Numbers in Motion: Sophie Kowalevski, Queen of Mathematics

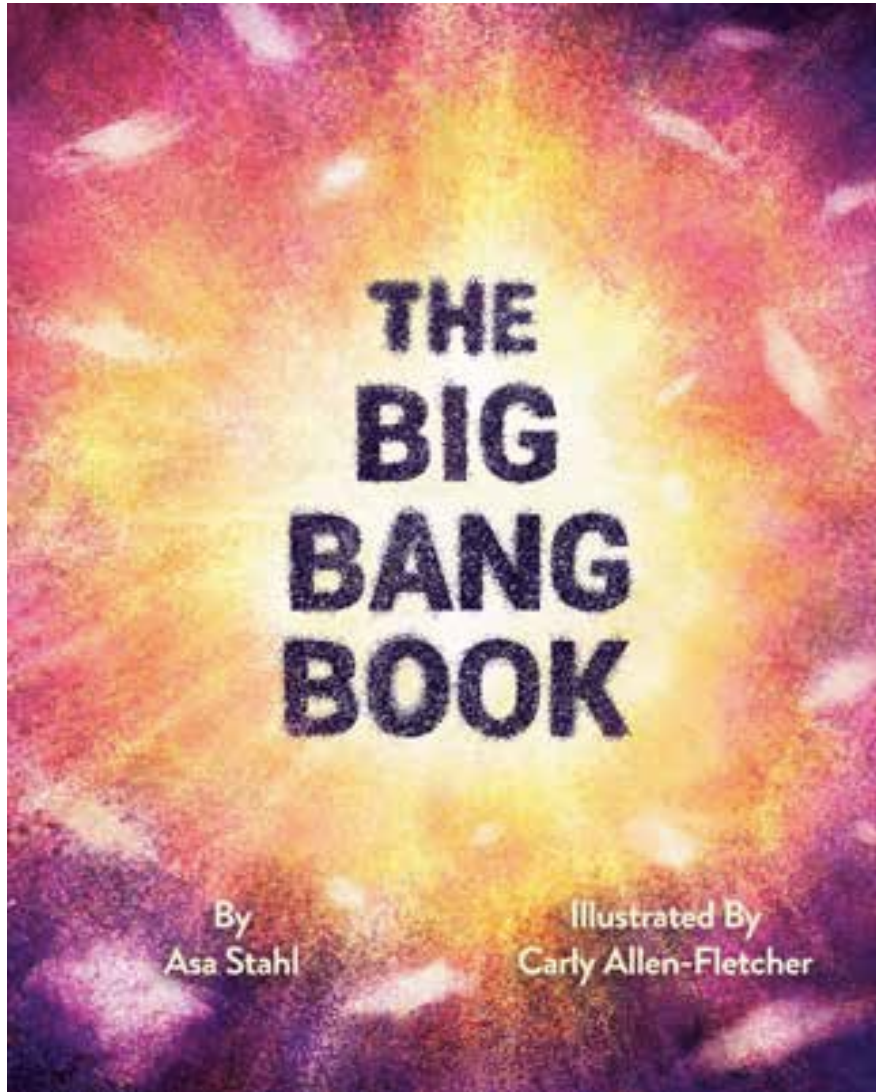

Author: Laurie Wallmark
Illustrator: Yevgenia Nayberg
Published by: Creston Books March 2020
Format: 32 pages, 6 to 10 years

As a young girl, Sophie paid little attention to the toys scattered about her bedroom. Instead, she spent hours trying to solve math problems covering her walls from floor to ceiling. This portrait of Sophie Kowalevski (1850-1891) traces her struggles and eventual success despite assumptions about women made in her native Russia and the various countries in which she obtained an education. She was the first woman to receive a doctorate in mathematics and the first woman to become a full professor at a university in Northern Europe.

The Big Bang Book

Author: Asa Stahl

Illustrator: Karly Allen-Fletcher

Publisher: Creston Books, April 2020

Format: 32 pages, 4 to 9 years

Written by an astrophysicist, the pages describe what we know—and what we don't know—about how the Universe began. A picture book Carl Sagan would love, introducing the wonder of our pale blue dot to the youngest readers.

Asa Stahl a PhD student in Astrophysics at Rice University seeks to answer just how rare is a planet like Earth and how did we get here?

Manic Panic

Author: Richa Jha

Illustrator: Mithila Ananth

Published by: Creston Books, 2018

Format: 38 pages, age 5 to 8

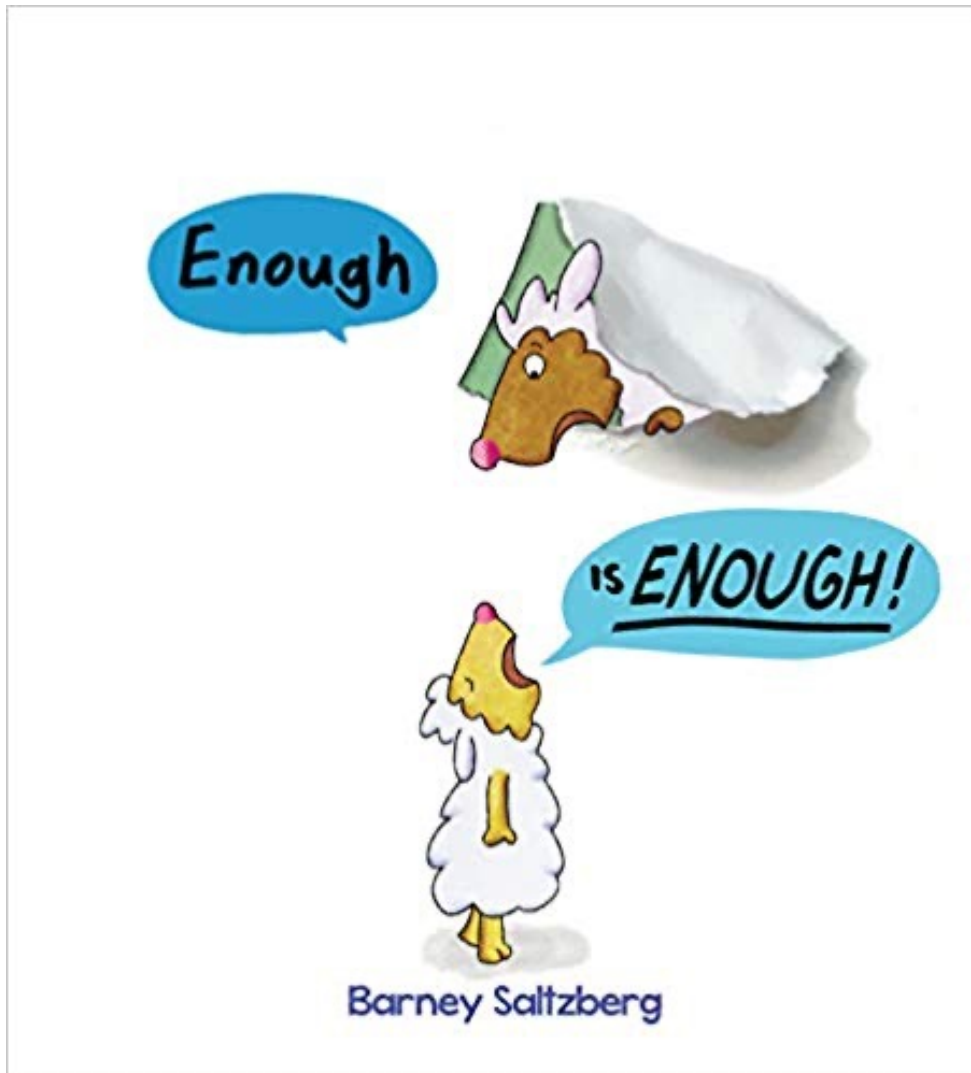

The unthinkable has happened – the Internet and Wi-Fi have gone down! A young girl and her Nana are not troubled by this – they have plenty of ideas what to do. It took a lot of convincing her parents to go on an outing, and they have a lovely time playing soccer, riding bicycles, and relaxing in the park. With humor and a clever protagonist, Jha puts a twist on a common problem of too much screen time—for adults.

Enough is Enough!

Author: Barney Saltzberg

Published by: Creston Books, 2018

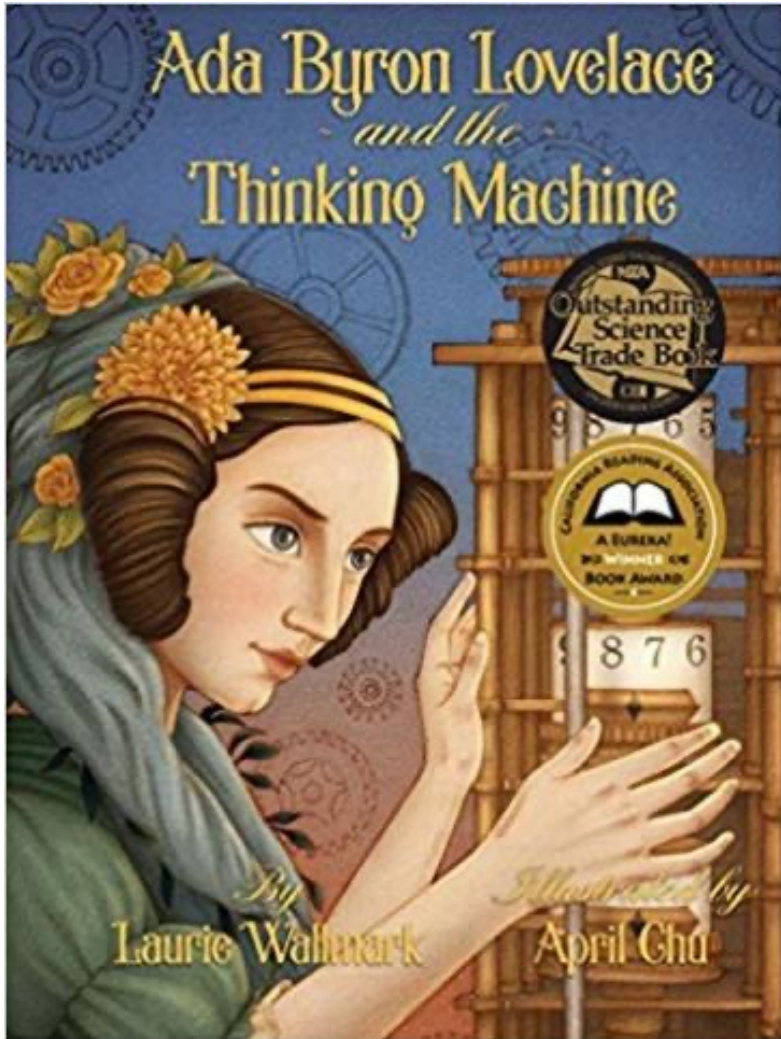

Format: 32 pages, age 3 to 6

Everyone has "enough is enough" moments. Saltzberg, the author of *Beautiful Oops!*, offers a creative solution for how to stop a fight by exploring space, time, and the pleasures of a good story read together. Olive goes from one page to the next, enjoying her "space" and "time" alone as she floats through outer space, swims with some fish, and walks across a tight rope. When it gets "Almost too quiet," she goes back through the hole in the page, back to the chair in the living room, to read the book together.

Ada Byron Lovelace & the Thinking Machine

Author: Laurie Wallmark
Illustrator: April Chu
Published by: Creston Books 2015
Format: 40 pages, age 4 to 10

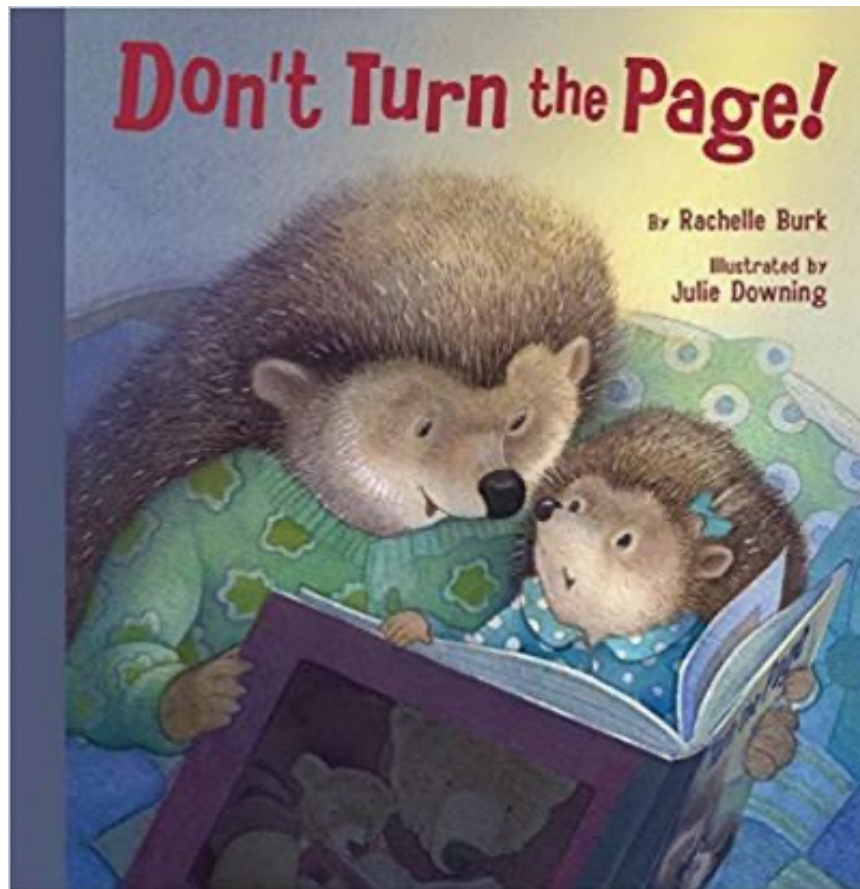

This beautifully illustrated picture book biography details how Ada Lovelace Byron, daughter of the famous romantic poet, was able to write the first computer program and to demonstrate its capabilities more than 100 years before the first computer was built. Ever since she was a young girl, she was fascinated by numbers and inventions, her ideas then sounded like science fiction.

The Artist Who Loved Cats

Author: Susan Schaefer Bernardo
Illustrator: Courtenay Fletcher
Published by: The Inner Flower Child books, 2019
Format: 32 pages, grade 1 - 2

With a sweet sprinkling of French vocabulary, we learn about the artist Theophile-Alexandre Steinlen, the creator of the iconic Le Chat Noir Cabaret posters created in 19th-century Paris. A little girl named Antoinette notices a little bronze cat in the window of her favorite antique store and begs the shopkeeper Monsieur Arvieux and his clever cat Noir to tell her all about the artist.

“Oh...the bronze? It’s by Steinlen! That’s one of his cats!
It’s really quite rare...”

“Steinlen? What’s that?”

Monsieur was soon holding the cat in his hand,
so he dropped the cigarette in an under-the-stool
and sat hunched down on a comfortable stool
because Monsieur’s tales were the best kind of school!

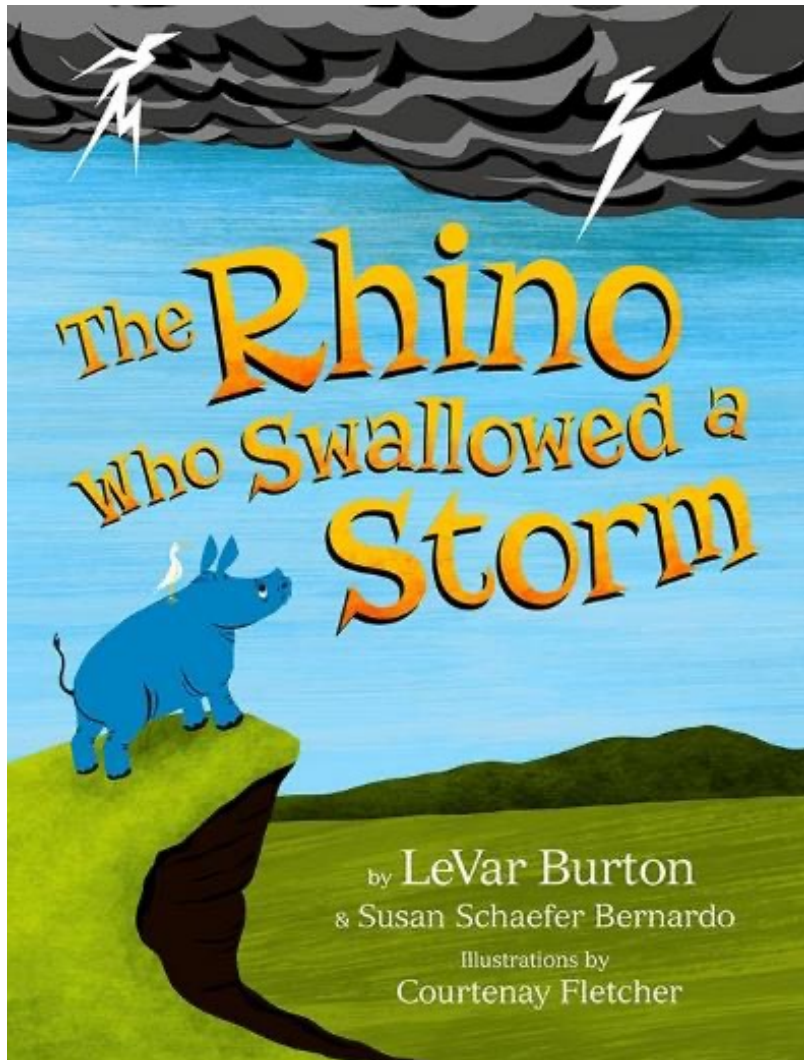

“Theophile Steinlen was an artist, of course,
who loved to observe and draw cats of all sorts.”

“Oooh,” said Antoinette,
“Please tell me more,
I love to hear stories
about things in your store!”

“Excuse me,” said the cat, “this is my tale to tell!
I knew Monsieur Steinlen, I knew him quite well!”

“Steinlen?” gurred Noir.
“Where shall I start?
How does an artist
begin to make art?”
