Proof of Life after Life

7 REASONS TO BELIEVE THERE IS AN AFTER LIFE

by **Raymond A. Moody, MD and Paul Perry**

Known as the "father of near-death studies" because of his work in identifying and naming the near-death experience (NDE), Dr. Raymond Moody is finally coming forth with *proof* of an afterlife. For 47 years, he has remained objective about the long-term meaning of NDEs, refusing to declare them proof of consciousness after death. Combining a lifetime of experience, research, and stories, *New York Times* bestselling authors Dr. Moody and Paul Perry give 7 evidenced-based reasons for why they reached the conclusion their substantial fan base has been waiting decades for: *There is definitely life after life*. Emergence

SEVEN STEPS FOR RADICAL LIFE CHANGE

by **Derek Rydall**

In his bestselling book *Emergence*, author Derek Rydall helps readers throw aside their self-help books and recognize one simple, radical truth: the answer is already in you. The harder we try to change, the deeper in the hole we get. We find a new partner but have the same old fights. We strive for an ever-bigger paycheck but end up broke at a higher income bracket. This is what happens when the basic principle of life—the Law of Emergence—is disrupted, stopping you from knowing that you are the perfect you. Like an acorn is a perfect acorn that becomes a perfect oak tree, there is not a part of you from beginning to end that isn't exactly what you should be. Visit derekrydall.com.

The Afterlife Revolution

by **Whitley Strieber and Anne Strieber**

Can love endure even after death? *The Afterlife Revolution*, written by Whitley and Anne Strieber, is among the most convincing stories of afterlife communication ever told, and is a ringing endorsement not only of the fact that we do not die, but also that the power of love can create an actual bridge between the physical and nonphysical worlds. As Anne says from the afterlife, "Mankind is divided, not so much between the sexes as between the living and what are called the dead. It isn't natural and it isn't necessary. We can become whole." American Shoes

A REFUGEE'S STORY

by **Rosemarie Lengsfeld Turk and Garrett L. Turk**

Set against the backdrop of World War II, *American Shoes* recounts the tumultuous childhood of a young American girl and her family trapped within Germany at time when the country turned against itself and human decency eroded and then vaporized. Forced to grow up in the midst of endemic fear stoked by a ravenous madman, *American Shoes* portrays the breakdown of a society from a child's point of view, deep inside a land where millions of law-abiding citizens were targeted as threats and then removed for extermination. Ultimately about hope, Rosemarie Lengsfeld Turk's story illustrates that we can emerge resilient from even the darkest of times. Visit americanshoesbook.com.

The Great Change

by **White Deer of Autumn**; illustrated by **Carol Grigg**

In this Native American tale, a wise grandmother explains the meaning of death, or the Great Change, to her questioning granddaughter. While going through their daily tasks in the Indigenous way, taking from Mother Earth only what is needed and returning what is not used so as to replenish her, 9-year-old Wanba asks, “Why do the fish have to die? Why does anything have to die? Why did Grandpa have to die?” Grandmother explains that just as a caterpillar “dies” only to become a beautiful butterfly, there is no “death” in the Circle of Life—only the Great Change. This is a story of passing on tradition, culture, and wisdom to the next generation. It is a moving tale for everyone—child and adult—who wonders about what lies beyond this life.

The Magical Starfruit Tree
