Emergence

SEVEN STEPS FOR RADICAL LIFE CHANGE

by **Derek Rydall**

In his bestselling book *Emergence*, author Derek Rydall helps readers throw aside their self-help books and recognize one simple, radical truth: the answer is already in you. The harder we try to change, the deeper in the hole we get. We find a new partner but have the same old fights. We strive for an ever-bigger paycheck but end up broke at a higher income bracket. This is what happens when the basic principle of life—the Law of Emergence—is disrupted, stopping you from knowing that you are the perfect you. Like an acorn is a perfect acorn that becomes a perfect oak tree, there is not a part of you from beginning to end that isn't exactly what you should be. Visit DerekRydall.com.

As the vibration of the world continues to accelerate, we are being catalyzed into a new kind of knowing—literally a transformative leap of perception. With *Leap of Perception*, third in Penney Peirce's Transformation series, we can now clearly see how perception itself creates the world and our life experience. We are rapidly outgrowing "old perceptions" and are discovering a high-vibrational "new perception" that creates a high-frequency world—one in which oneness, compassion, service, joy, and mutually sourced cocreativity prevail. Visit PenneyPeirce.com.

The Afterlife Revolution

by **Whitley Strieber and Anne Strieber**

Can love endure even after death? *The Afterlife Revolution*, written by Whitley and Anne Strieber, is among the most convincing stories of afterlife communication ever told, and is a ringing endorsement not only of the fact that we do not die, but also that the power of love can create an actual bridge between the physical and nonphysical worlds. As Anne says from the afterlife, "Mankind is divided, not so much between the sexes as between the living and what are called the dead. It isn't natural and it isn't necessary. We can become whole." **The Great Change**

by **White Deer of Autumn; illustrated by Carol Grigg**

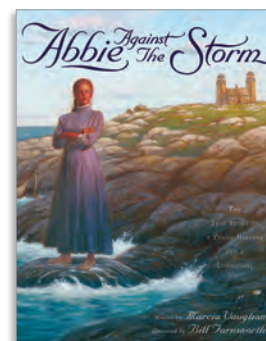

In this Native American tale, a wise grandmother explains the meaning of death, or the Great Change, to her questioning granddaughter. While going through their daily tasks in the Indigenous way, taking from Mother Earth only what is needed and returning what is not used so as to replenish her, 9-year-old Wanba asks, “Why do the fish have to die? Why does anything have to die? Why did Grandpa have to die?” Grandmother explains that just as a caterpillar “dies” only to become a beautiful butterfly, there is no “death” in the Circle of Life—only the Great Change. This is a story of passing on tradition, culture, and wisdom to the next generation. It is a moving tale for everyone—child and adult—who wonders about what lies beyond this life.

Elizabeth's Song

by **Michael Wenberg**; illustrated by **Cornelius Van Wright**

Elizabeth's Song is the true-life story of Elizabeth Cotton, the noted African American folksinger, guitarist, and songwriter. Eventually, she earns enough money to buy a guitar of her very own and is then inspired to write her first song—the folk classic “Freight Train,” written when she was 11 years old. Elizabeth’s unique style of playing guitar (upside down and backwards), from which the musical term “cotton-picking” is derived, has influenced countless other musicians.
